USN Number: 11917.000105

Name: DEAN'S (DEEN'S) BRIDGE

Location: Deans Bridge Road, Somers NY

Resource Status:

- 1. Determination:** Eligible
- 2. Contributing:** False

Criteria for Inclusion in the National Register:

- Associated with events that have made a significant contribution to the broad patterns in our history.
- Associated with the lives of persons significant in our past.
- Embodies the distinctive characteristics of a type, period or method of construction; or represents the work of a master; or possesses high artistic values; or represents a significant and distinguishable entity whose components may lack individual distinction.
- Have yielded, or may be likely to yield information important in prehistory or history.

Summary Statement:

Dean's Road Bridge is eligible for the National Register of Historic Places as a significantly intact example of a single-span Pratt eyebar through-truss bridge built in 1904. It crosses the Croton River/Muscoot Reservoir between the towns of Somers and North Salem in Westchester County. A concrete-filled grating deck and stringers were installed in 1954. Although it retains a high degree of architectural integrity, it has deteriorated and has been closed for several years.
