USN Number: 11712.000043

Name: Main Street Bridge over Salmon Creek

Location: NY

Resource Status:

- 1. Determination:** Eligible
- 2. Contributing:** False

Criteria for Inclusion in the National Register:

- Associated with events that have made a significant contribution to the broad patterns in our history.
- Associated with the lives of persons significant in our past.
- Embodies the distinctive characteristics of a type, period or method of construction; or represents the work of a master; or possesses high artistic values; or represents a significant and distinguishable entity whose components may lack individual distinction.
- Have yielded, or may be likely to yield information important in prehistory or history.

Summary Statement:

This masonry stone arch bridge (BIN 2210710) carries School Street over the Salmon Creek in the Town of Sodus, Wayne County. Built ca. 1899, the bridge was determined NR eligible as part of the DOT Bridge Survey under Criterion C as an example of a traditional stone arch, filled spandrel, deck bridge. This type of bridge was typical for small crossings, particularly in areas where stone was readily available. The bridge retains integrity of location, design, setting, materials, workmanship, and feeling. While the bridge retains its historic integrity it has suffered from structural deficiencies including cracking of the mortar and stones.
