| Total length                                | 37.2 m = 122.1 ft               | Length of maximum span          | 18.6 m = 61.0 ft                         | Deck width, out-to-out             | 15.8 m = 51.8 ft             |
|   |                                 |                                 |  | Bridge roadway width, curb-to-curb | 11 m = 36.1 ft               |
| Inventory Route, Total Horizontal Clearance | 14.9 m = 48.9 ft                | Curb or sidewalk width - left   | 2 m = 6.6 ft                             | Curb or sidewalk width - right     | 2 m = 6.6 ft                 |
| Deck structure type                         | Concrete Cast-in-Place [1]      |                                 |  |                                    |                              |
| Type of wearing surface                     | Bituminous [6]                  |                                 |  |                                    |                              |
| Deck protection                             |                                 |                                 |  |                                    |                              |
| Type of membrane/wearing surface            |                                 |                                 |  |                                    |                              |

**Weight Limits**

|                       |                                      |                                   |                  |                              |
|-----------------------|--------------------------------------|-----------------------------------|------------------|------------------------------|
| Bypass, detour length | Method to determine inventory rating | Load Factor(LF) [1]               | Inventory rating | 76.5 metric ton = 84.2 tons  |
| 0.2 km = 0.1 mi       | Method to determine operating rating | Load Factor(LF) [1]               | Operating rating | 99.9 metric ton = 109.9 tons |
|                       | Bridge posting                       | Equal to or above legal loads [5] | Design Load      | MS 18+Mod / HS 20+Mod [6]    |

### Functional Details

Average Daily Traffic  Average daily truck traffi  % Year  Future average daily traffic  Year

Road classification  Lanes on structure  Approach roadway width

Type of service on bridge  Direction of traffic  Bridge median

Parallel structure designation

Type of service under bridge  Lanes under structure  Navigation control

Navigation vertical clearanc  Navigation horizontal clearance

Minimum navigation vertical clearance, vertical lift bridge  Minimum vertical clearance over bridge roadway

Minimum lateral underclearance reference feature

Minimum lateral underclearance on right  Minimum lateral underclearance on left

Minimum Vertical Underclearance  Minimum vertical underclearance reference feature

Appraisal ratings - underclearances

### Repair and Replacement Plans

Type of work to be performed

Work done by

Bridge improvement cost  Roadway improvement cost

Length of structure improvement  Total project cost

Year of improvement cost estimate

Border bridge - state  Border bridge - percent responsibility of other state

Border bridge - structure number

## Inspection and Sufficiency

|   |  |                                       |   |
